

REPORT ON THE SEMINAR FOR NANO-SATELLITE MISSION IDEA CONTEST IN VIETNAM

Speaker: Dr. Phan Manh Dan, Space Technology Institute (STI), Vietnam Academy of Science and Technology (VAST)

Venue: Seminar Room, 2nd Floor, 2B Building, 18 Hoang Quoc Viet, Hanoi, Vietnam

Date: November 9th, 2010 (Tuesday)

Time: 9:00 – 11:00 am

The MIC seminar was held at Space Technology Institute on November 9th, 2010. There were about 20 attendants from space technology sector and small satellite projects. The participants were very excited about in this contest. Many questions were sent to Dr. Dan and Prof. Nakasuka. In this seminar, the attention was paid not only to MIC, but also to other issues that relate to a small satellite development. We do hope that after this seminar there will be some mission ideas submitted to the contest from Vietnam.
